Skills

- JavaScript | TypeScript | MongoDB | PostgreSQL | Node.js | Express.js | React.js | Next.js | jQuery | MySQL | Git | HTML | CSS
- Tailwind CSS | Sass | C | C++ | Python | EJS

Profile

I'm Oğuz, an electrical engineering student turned passionate programmer. Starting with C and C++, I found my calling in web development during university. I left formal education to focus on web development, diving into self-learning through Udemy courses and certifications. Building a robust portfolio, I honed my skills in creating dynamic and visually appealing websites. Now, I'm eager to bring my blend of creativity and technical proficiency to your team and contribute to impactful projects.

Personal Projects

Evently - Event Management Website

- Developed "Evently," a responsive event management website using Next.js, React, Tailwind CSS, and MongoDB.
- Implemented features allowing users to create, delete, and purchase tickets for events.
- Integrated user authentication and authorization functionalities for secure access.
- Designed a visually appealing and intuitive user interface to enhance user experience.
- Leveraged MongoDB for efficient data storage and retrieval.
- Project Link: <https://event-platform-nextjs.vercel.app/>

Tech Heaven - E-commerce Website

- Developed an e-commerce website named "Tech Heaven" using Next.js, React, Tailwind CSS, MongoDB, and TypeScript. Implemented features allowing users to create, delete, and purchase tickets for events.
- Implemented features allowing users to browse products, add items to their cart, and make purchases seamlessly.
- Integrated MongoDB for efficient data storage, enabling seamless retrieval of product information and user cart data.
- Incorporated user authentication functionalities, allowing users to log in to their accounts to access their personalized carts and order history.
- Project Link: <https://nextjs-e-commerce-roxy.vercel.app/>

Snapgram - Social Media Website

- Created "Snapgram," a dynamic social media platform, utilizing Next.js, React, Tailwind CSS, MongoDB, and TypeScript.
- Empowered users to seamlessly share, like, and save posts, fostering engagement and community interaction.
- Leveraged Tailwind CSS to craft an intuitive and visually appealing user interface, ensuring optimal user experience across all devices.
- Implemented robust user authentication mechanisms to safeguard user accounts and personal information.
- Enriched the user experience with features such as post deletion and profile updates, empowering users to customize their online presence.
- Project Link: <https://snapgram-phi-swart.vercel.app/>

Front End E-commerce Website

- Crafted an engaging e-commerce website with JavaScript, React, HTML, CSS, and Material-UI.
- Empowered users to easily add items to their cart with intuitive interface and Material-UI components.
- Utilized React's state management for real-time cart updates, enhancing user experience.
- Focused on optimizing checkout process and scalability for seamless shopping experience.
- Continuously iterated based on user feedback to drive conversions and satisfaction.
